Sourcing by identifying and locating suppliers is relatively simple, but it becomes more complex as the amount of unique raw materials, ingredients, and supplies increases and the numbers of buyers involved in the decisions expand.

The risks of buying the wrong items, services or from the wrong supplier can have major impacts and ripple throughout a business. Consequences can range from late delivery to total service failure liability and can even affect market competitiveness.

Celexport relies on sourcing and logistics to minimize the risks of buying on FOB, CFR, and CIF terms. We help Buyers/Importers identify, target and verify with their potential suppliers and products through what we called Supplier Checklist, which include:

1. Check of Legality
2. Check of The Financial Capacity of The Company
